

New Patient Information

Welcome to AgeWell, we are excited to share the VibeMD program with you. VibeMD applies low-intensity extracorporeal shockwave therapy to the soft tissue of the male genitals. By the direct application of low-intensity sound waves VibeMD regenerates and repairs erectile tissue. The mild shear stress from shock wave therapy causes the body to release biologic factors which permit existing vessels to receive more blood. Additionally, the body begins to create new blood vessels and nerves leading to improved blood flow and sensation in the penis. Sexual performance is naturally enhanced due to an increase in erection quality.

Before your appointment, please login to Power2Patient.com and under the Health tab at the top select My Medical Profile. In order for us to provide the best possible care, we encourage you to fill out as much of the history as possible. Before your first treatment it is mandatory that the following tabs be completed:

- ❖ **Personal**
- ❖ **Reason for Visit**
- ❖ **Meds & Supps**
- ❖ **Allergies**

AgeWell is the first provider in the Texas Panhandle to offer this treatment. Below is what you can expect with treatment:

- ❖ A treatment cycle consists of six, twenty minute in office procedures.
- ❖ On your first visit you will be provided with a topical numbing cream which you will apply. This cream may be applied at home prior to arrival for all subsequent treatments, apply at least 30 minutes prior.
- ❖ As with all procedures at AgeWell, Nitrous Oxide (laughing gas) is available during your treatment
- ❖ You may immediately resume all normal daily activities, including having sex the day of the procedure.
- ❖ Depending on your age and medical condition, you may experience spontaneous erections the day of the procedure.
- ❖ Your first visit will last about an hour due to the application of numbing cream. If you prefer to pick up the numbing cream prior to your first visit, please call our office to make arrangements. When numbing cream is applied prior to arrival, you can expect your appointment to last about thirty minutes.
